Product Approval Announcement

Colorado DOT Approves HeliPost for projects

FORT COLLINS, COLORADO – Secure Piers, LLC is proud to announce that the State of Colorado has approved the HeliPost foundation for use in accordance with its QPL list. Colorado is the first state to give blanket approval of the Secure Piers HeliPost foundation.

The State will continue to evaluate and document the use of the product on applicable DOT projects.

For more information about Secure Piers, LLC and its products, please call (888) 495-7772 or e-mail info@securepiers.com

Secure Piers, LLC was founded in 2004. SECURE delivers an instant, same-day, foundation system. The patented system provides an easily engineered foundation for projects that deserve reduced installation time, lower labor costs, and superior safety. Our nationwide manufacturing and distributions team guarantees early completion of your project's foundations.
